About Us

PT Equator Jingga, founded in 1998, is an Indonesian company specializing in crafting high-quality indoor and outdoor furniture with stylish designs and exceptional durability.

With four factories spread across Cirebon, West Java, we meticulously create furniture using a diverse range of materials, including natural options like teak, abaca, and rattan and modern synthetic materials such as resin wicker, stainless steel, and aluminum.

Our product line includes various furniture pieces, such as chairs, tables, lounges, and upholstered items. They are meticulously crafted to blend contemporary design with expert craftsmanship. We take pride in sourcing timber from responsibly managed plantations and continuously strive to improve our production processes by incorporating cutting-edge technologies.

Over the past five years, we have revolutionized the concept of handcraft by seamlessly integrating machine and handcraft techniques. This fusion aims to achieve precision and accuracy in size while preserving handmade products' inherent value and uniqueness.

A wooden mirror is a captivating blend of craftsmanship and technology, where small wooden tiles shift in response to light and shadow, creating a reflective illusion without the need for glass. It highlights the beauty of natural wood while providing an interactive and artistic experience. Likewise, fine weaving embodies the essence of meticulous handiwork, with intricate patterns and textures created by interlacing threads in perfect harmony.

Whether it's a traditional textile or a modern fiber art piece, weaving signifies patience, skill, and cultural heritage. Both wooden mirrors and woven pieces celebrate the artistry of materials, transforming simple elements into mesmerizing designs.
